A WORD FROM THE CEO

Adekunle Daniel OLOUWOLE

Founder & CEO, Golven Elite

For more than a decade, Golven Elite’s founder has worked with businesses and organizations on growth, transformation and execution challenges across several of our areas of expertise.

That decade-plus experience led to a simple conviction: when a project crosses multiple disciplines, coordination matters as much as expertise. Golven Elite now brings those capabilities together within one delivery framework.

> ***My job isn't just to deliver a website or a logo. It's to give every client the tools to grow with confidence, at their own pace.***

OUR TEAM

An experienced team. High standards.

Golven Elite works with experienced professionals in their respective fields. This model keeps us agile, allows us to assemble the expertise required for each assignment and maintains a high level of involvement from the first brief through post-delivery support.

- **Legally established company in Guinea**
- **Experienced leadership**
- **Team and specialists available as required**
- **Documented delivery process**
- **Confidentiality & compliance**
- **French & English**

OUR CREDIBILITY

A new company.
Proven professional experience.

Golven Elite was established in 2026 with a modern, agile structure. Our leadership brings more than ten years of professional experience, complemented by experienced team members and a network of specialist partners mobilized according to each project's requirements.

Experienced leadership

More than 10 years of professional experience from the founder.

Experienced team

Professionals with complementary areas of expertise.

Specialist partners

Experienced partners mobilized when the project requires them.

OUR CAPABILITIES

Five capabilities. One integrated ecosystem.

You do not choose from an isolated catalogue: we assemble the capabilities that matter around the problem to solve.

Digital & Technology

Digital products, software, AI, infrastructure, automation and digital solutions built around your operations.

Custom software · AI & automation · Infrastructure

Engineering & BTP

Construction, civil engineering, technical studies, supervision, solar energy and energy efficiency.

Construction · Civil engineering · Solar energy

Mining Transport & Logistics

Mining and industrial transport, operational logistics, fleet, freight and supply chain.

Mining transport · Mining logistics · Supply chain

OUR CAPABILITIES

Five capabilities. One integrated ecosystem.

You do not choose from an isolated catalogue: we assemble the capabilities that matter around the problem to solve.

Mobility & Services

Travel, international assistance, ticketing, VIP transport and corporate services.

Travel · VIP transport · Concierge

Strategy & Growth

Strategy, transformation, business development, performance and professional documentation.

Strategy · Business development · Transformation

CAPABILITIES

- Support before, during and after travel

Strategy & Growth

We clarify priorities, structure opportunities and turn strategic direction into executable action.

Consulting & transformation | **Business development** | **Documents & tenders**

Strategy & Transformation Consulting

- Positioning & business restructuring
- Digital transformation & innovation

Business Development & Investment

- Business development & market research
- Partnerships & market expansion

Project Management & Performance

- Planning & performance monitoring
- Operational management & governance

Professional Documents, Tenders & Communication

- Business plans, reports & proposals
- Tenders & pitch decks

OUR APPROACH

From idea to delivery, a controlled process

Whatever capability is mobilized, we follow the same working framework — clear, documented and coordinated end to end.

STEP 01

Discover

We understand your organization, objectives, constraints and expected outcome.

STEP 02

Structure

We define the strategy, scope, resources, responsibilities and timeline.

STEP 03

Design & Build

Our teams design, develop, execute and test the solution with rigor.

STEP 04

Deploy

We put the solution into operation and verify compliance, quality and performance.

STEP 05

Support

We remain available for maintenance, optimization and the next stages of growth.

OUR ENGAGEMENT MODELS

An engagement level built around your organization

We do not sell rigid formulas. We adapt our level of involvement to your maturity, project complexity and expected outcomes.

START

LAUNCH

New businesses, SMEs and focused projects

The fundamentals required to establish a credible presence and put the right first building blocks in place.

- Needs assessment and priority recommendations
- Selection of the expertise required for the project
- A clear, measurable and controlled delivery scope

GROW

DEVELOPMENT

Established SMEs and expanding organizations

Structured support to strengthen your brand, tools and operations.

- A combination of services across multiple capabilities
- Execution plan and coordination of contributors
- Follow-up, optimization and post-delivery support

RECOMMENDED

TRANSFORM

TRANSFORMATION

Growing companies and market leaders

A multidisciplinary intervention to transform a process, business activity or ecosystem.

- Diagnosis, strategy and roadmap
- Design and deployment of integrated solutions
- Project leadership, automation and change support

ENTERPRISE

PARTNERSHIP

Large organizations, institutions and complex projects

Premium partnership with governance, coordination and delivery capacity suited to strategic projects.

- Dedicated project leadership and coordination
- Technical, operational and strategic expertise on demand
- Long-term support, maintenance and evolution

WHAT SETS US APART

Why choose Golven Elite

One partner, multiple capabilities

We assemble the expertise required around the problem to solve, without forcing the client to coordinate a succession of providers.

Built around your project

Engagement levels from START to ENTERPRISE that evolve with your organization, project and required level of coordination.

Regional understanding, international standards

West African market understanding combined with strong standards for quality, method and documentation.

Bilingual, without borders

Projects can be delivered in French and English for organizations operating beyond a single market.

OUR NETWORK

Experienced partners when the project requires them

Some projects require specialized resources or capabilities. Golven Elite can mobilize experienced partners in construction, engineering, logistics, transport, energy and other technical disciplines, according to the agreed scope and requirements.

Construction & BTP

Technical and operational capabilities suited to construction projects.

Logistics & transport

Specialist resources for mobility, transport and supply-chain requirements.

Engineering & energy

Specialist expertise mobilized according to the project's technical requirements.

FREQUENTLY ASKED QUESTIONS

How long does a typical project take?

Timing depends on scope, dependencies and the expertise required. We define an indicative schedule after project scoping.

Do you work in both English and French?

Yes. Our entire delivery — design, content, development, support — is available in English and French, end to end.

Can I combine services from multiple pillars?

Absolutely. We can combine multiple capabilities around one objective and build a tailored scope when the project requires it.

Do you offer support after launch?

Yes — maintenance, technical support and ongoing strategic guidance are all part of our method, well beyond your project's launch.

One partner. Multiple capabilities. One standard.
